Client Operations & CRM Management / AI Automation & Workflow Engineering / MBA

PROFESSIONAL SUMMARY

Client Operations & CRM professional with an MBA and 3+ years owning end-to-end operational workflows, multi-stakeholder coordination, and client lifecycle management across large-scale projects. Demonstrated track record of redesigning SOPs that measurably cut resolution time and lift CSAT at scale. Recently extended this operations rigor into AI automation — building and shipping 10+ production AI systems across n8n, Python, Claude, Groq, and Gemini for workflow engineering, lead qualification, content automation, knowledge management, and voice-first AI assistants.

CORE COMPETENCIES

Stakeholder & Client Management · CRM Operations & Team Leadership · End-to-End Process Ownership · SOP Design & Optimization · Cross-functional Coordination · Project Lifecycle Management · AI Automation & Workflow Engineering (n8n, Python) · LLM Integration (Claude, Groq, Gemini, Ollama) · Compliance & Documentation · Public Speaking & Communication · Data Integrity & Reporting · Escalation Management · Data-Driven Decision Making

PROFESSIONAL EXPERIENCE

Paras Buildtech

Assistant Manager — CRM

Apr 2026 – Present

Gurgaon, Haryana

- Manage day-to-day operations of the CRM team — overseeing performance, workload allocation, and adherence to service-level standards across the post-sale client lifecycle.
- Coordinate cross-functional processes between sales, finance, legal, and technical teams to resolve client queries and eliminate handoff bottlenecks.
- Oversee CRM system usage and team performance — monitor query resolution time, escalation patterns, and CSAT KPIs to drive continuous process improvement.
- Ensure data integrity and reporting standards across CRM records, enabling clean leadership-level reporting on operational health.

County Group

Client Operations & Coordination Executive

Jul 2023 – Apr 2026

Noida, Uttar Pradesh

- Owned the complete post-sale operational lifecycle for **300+ residential units across 3 active projects spanning 7 towers** — documentation, customer communications, legal compliance checks, and inter-departmental coordination from booking to possession.
- Served as single operational point of contact for clients from booking to registry; coordinated daily with sales, finance, legal, and technical teams.
- Led the end-to-end possession handover process — audited files for documentation, compliance, and clearances; achieved **zero handover rejections**.
- Designed SOP-driven workflow improvements across client query management — **35% reduction in resolution time**.
- Drove a **20% improvement in client satisfaction scores** through structured service interventions and proactive communication frameworks.

- Built and maintained CRM dashboards tracking service-performance KPIs; presented operational insights to senior leadership, influencing strategic revisions to client service workflows.

Freelance

Special Event Manager & Emcee

Oct 2022 – Apr 2023

Delhi, India

- Led full project lifecycle of an international panel event (90+ attendees) — budgeting, vendor negotiations, logistics, multi-stakeholder coordination — delivering **97% attendee satisfaction**.
- Directed a 7-member cross-functional team under significant time and resource constraints; served as Emcee for the international conference.

Conscient Infrastructure Pvt. Ltd.

Human Resources Intern

Oct 2019 – Apr 2020

Gurugram, Haryana

- Supported onboarding operations and ERP-based data management; streamlined internal communication workflows — **20% reduction in internal escalations**.

SELECTED PROJECTS — AI AUTOMATION & WORKFLOW ENGINEERING

Soul in Motion — 9-Platform Content Automation Engine — One Word file with timestamped journal entries is parsed, expanded by AI into 5 content formats, rendered into an animated reel, and auto-published to 9 platforms (LinkedIn, Dev.to, Hashnode, WordPress, Blogger, Instagram, YouTube Short + Video, Medium). First live end-to-end run April 2026.

Stack: Python 3, Groq Llama 3.3 70B, MoviePy, Cloudinary, Instagram Graph API, YouTube Data API v3, OAuth2, n8n

Hyperliquid Jarvis — LLM-in-the-Loop Paper-Trading Agent — Autonomous paper-trading agent for Hyperliquid perpetuals + Alpaca US equities. Hourly Gemini calls validated against hard risk limits; SQLite PaperBroker; self-healing Cloudflare tunnel; \$0/month infra; public live dashboard.

Stack: Python 3.13, hyperliquid-python-sdk, alpaca-py, google-genai, FastAPI, SQLite, Next.js 14

Job Application Agent — Fully automated job pipeline. 5 scrapers run every 4–6h; local Qwen 2.5 7B scores each job 0–100; matches ≥ 70 get a tailored CV + cover letter; three executor agents auto-submit via Playwright; everything logged to Google Sheets.

Stack: n8n (11 workflows), Ollama + Qwen 2.5 7B, Playwright + Chromium, Python, Google Sheets API

AI Lead Qualification Pipeline — Form-to-AI-qualification-to-sales-alert in under 30 seconds. Scores inbound leads HOT/WARM/COLD with rationale; writes back to Google Sheets; triggers email alerts on hot leads. Repeatable freelance service for real-estate, insurance, and education clients.

Stack: n8n, Groq Llama 3.3 70B, Google Sheets, Twilio WhatsApp, Gmail API

JARVIS — Voice-First Personal AI Assistant — 24/7 voice assistant. Wake-word listener, 18-intent classifier, long-term memory across sessions, browser automation for WhatsApp and Gmail, system-level controls via Win32 API. Runs entirely on local hardware, \$0/month.

Stack: Python 3.11, Groq Llama 3.3 70B, edge-tts, Mem0 + Qdrant, Playwright, ctypes (Win32 API)

AI News Daily — YouTube + LinkedIn Pipeline — Autonomous daily content pipeline. Researches trending news (Google Trends + Reddit + NewsAPI), Groq writes a 4–5 min script, Edge TTS narrates, Pexels pulls visuals, FFmpeg assembles 1080p video, YouTube + LinkedIn auto-post.

Stack: Python 3.14, Groq, Edge TTS, Pexels API, NewsAPI, FFmpeg 8.1, YouTube Data API v3

Second Brain — Personal Knowledge System — 3-layer compounding knowledge system: CLAUDE.md auto-memory + Obsidian vault with smart-connections MCP + ingestion pipeline. 8 n8n workflows handle Telegram capture, YouTube transcription, Whisper voice notes, bookmarks, and weekly digests.

Stack: Obsidian (MCP), n8n, Telegram Bot API, Python (Whisper, yt-dlp), Flask, Claude API

Aura — Eternal Planet Guardian — Stateful AI climate coach built for DEV Weekend Challenge (Earth Day 2026). Three-column chat UI; remembers habits and streaks; computes a pure, weighted, log-scaled impactScore. Client-only, deployed on Vercel.

Stack: React + Vite, Tailwind CSS, Google Gemini 2.5 Flash, Backboard SDK, Vercel

Instagram Growth System — AI-powered analyzer + content engine. 12-dimension analysis (engagement, hooks, hashtags, timing, hook→tension→payoff scoring); generates 5 reel structures with beat-by-beat scripts and a 7-day content calendar.

Stack: Python, Instagram Graph API, Playwright + Chromium, Google Drive API

Content Machine — 30-Day Launch System (Product) — Buyer-facing digital product. 30 days of pre-written Instagram + LinkedIn content (hooks, captions, hashtags, reel scripts, DM templates) paired with 4 importable n8n workflows + Python orchestrator. Launches on Gumroad.

Stack: Markdown content kit, n8n workflows, Python orchestrator, Gumroad

KEY ACHIEVEMENTS

- **35% faster resolution time** — Redesigned client query SOPs at County Group, improving throughput across 300+ active units.
- **20% CSAT improvement** — Structured client service interventions across 3 residential projects.
- **97% event satisfaction** — International panel event with 90+ attendees and 7-person team.
- **Zero possession handover rejections** — File audit and compliance verification process.
- **10+ AI systems shipped in production** — Across content generation, lead qualification, knowledge management, voice assistants, and autonomous trading.

TECHNICAL SKILLS

AI & Automation	n8n, Claude API, Claude Code, Groq, Gemini, Ollama, prompt engineering, AI agent design, RAG, vector memory (Mem0, Qdrant)
Development	Python 3, JavaScript, TypeScript, Next.js, React, FastAPI, Node.js
Browser & Media	Playwright + Chromium, FFmpeg, MoviePy, watchdog, BeautifulSoup
Integrations	Google Sheets / YouTube Data API v3 / Gmail / Instagram Graph, Twilio WhatsApp, LinkedIn REST, OAuth2, GraphQL, SQLite
Cloud & Infra	Vercel, Railway, Cloudflare Tunnel, GitHub Actions, Docker, Windows Task Scheduler
Tools	Obsidian, Git/GitHub, Telegram Bots, Notion, MCP servers
Business	CRM operations & team management, product thinking, workflow design, SOP design, compliance, dashboards

EDUCATION

Ambedkar University, Delhi <i>Master of Business Administration (MBA) — Innovation, Entrepreneurship & Venture Development</i>	<i>Dec 2021 – Nov 2023</i>
Ramanujan College, University of Delhi <i>B.A. (Hons) Philosophy</i>	<i>Jul 2016 – Jun 2019</i>

CERTIFICATIONS, LANGUAGES & ADDITIONAL

Certifications: Developing Interpersonal Skills · Active Listening · Introduction to Events Management
Languages: English (Full Professional) · Hindi (Native) · Spanish (Elementary)

Additional: State-level Cricket player; multi-award winner in performing arts (First Prize, Best Production, Most Original Adaptation) — competitive drive, teamwork, stage presence.
